For use with Used chip CF289X

This CF289X is a compatible Toner Cartridge with a used OEM chip.

The printer will prompt toner low message when installed, please ignore the message and continue with print activities. Replace toner cartridge when signs of fading or low image density occur during print jobs.

Step 1.

"Used Black Cartridge in use" message will occur when a replacement toner cartridge with old OEM chip is installed. Press "Exit" to continue.

Step 2.

"Used Black Cartridge installed" message will now occur, press "OK" to by pass the warming message.

Your printer is now ready. Repeat Step 1 & 2 whenever new replacement toner cartridge in installed.
