

Cartridge Installation Instructions

When you first install the cartridge, you may see the message that a “used” cartridge has been installed or you may see a message that a “Genuine HP Cartridge” has been installed. In either scenario, Press OK. (This is one time only at install)

Important to Note:

Supplies Status Page can be printed. But it will not provide the correct toner levels.

End-of-life will have to be established by faded print.

To get additional pages after a fade, remove the color cartridge that faded, hold it horizontally by the handle and gently shake side-to-side to redistribute the remaining toner.

OEM	OEM No.	Printer Models
