

Katun® Monochrome Toner Cartridges for use in

Lexmark T650, T652, T654, T656

Printers

Katun introduces its new toner line for use in Lexmark monochrome printers – these toners produce quality prints at an exceptional value!

Benefits:

◆ **Toner Performance You Can Trust**

These Katun remanufactured toner cartridges have been developed to provide market acceptable print quality and OEM-equivalent page yields. Each toner is also backed by Katun's two-year product warranty to ensure complete customer satisfaction.

◆ **Realize Significant Cost Savings**

In the extremely competitive printer supplies market, price is a primary consideration, particularly with monochrome products. These printer products are priced competitively against the printer aftermarket, with even more significant savings when compared to OEM products.

◆ **Outstanding Overall Value!**

These monochrome toners provide customers an outstanding overall value versus both the OEM and the aftermarket alternatives. Katun toners are remanufactured to provide consistent and reliable output – meeting the expectations of even the most demanding Lexmark customers seeking aftermarket value.
