## For use with EcoPLUS W2310A JUMBO color series

Our EcoPlus W2310A Jumbo color series is a Remanufactured Toner Cartridge with a used OEM Chip. The printer will prompt toner low message when installed, please ignore the message and continue with print activities. Replace toner cartridge when sign of fading or low image density occur during print jobs.

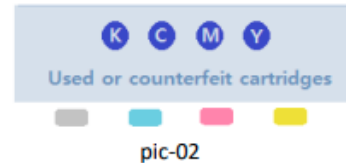

### Step 1.

"Used or counterfeit cartridges" message will occur when a replacement toner cartridge with old OEM chip is installed.

### Step 2.

Press "OK" to continue.

### Step 3.

Toner calibration will now begin.  
(This process may take several minutes).

Your printer is now ready. Repeat Step 1 ~ 3 whenever new replacement toner cartridge is installed.
